

An Inside Look at the New Bill4Time Payments!

The recording for this live stream is available. [Register here](#) to access it for free!

Over the last year, we've watched the needs of our clients evolve and it prompted us to make some changes. Maintaining revenue is an important aspect of your business and having a high-level view of your company's cash flow is easier to manage in-house.

We are thrilled to offer a truly all-in-one software with our new in-house payments processor, Bill4Time Payments! Now, your company can easily process payments in the office or on the go without the hassle of waiting for paper checks. Your clients can quickly make their payment in just a few clicks and it deposits directly into your operating account. Faster collection times translates to your company increasing revenue by earning more on the dollar.

If you missed our latest live stream with our VP of Customer Success, Kristin O'Neill, and Manager of Customer Success, Kris Holz, you can view the recording below for an exclusive behind-the-scenes look into the functionality of Bill4Time Payments and how ePayments will get you paid faster.

Why online payments are a must-have (3:05)

Online payments are more than just an added convenience for your clients. They greatly influence your time to collect on invoices and the amount of revenue you're bringing in. [78% of consumers ranked digital payments](#) as their desired method of payment, making online payments more than just a nice-to-have. Companies who offer ePayments will notice a decrease in collection times which correlates to increased revenue.

What makes Bill4Time Payments different? (4:03)

Third-party and integrated payment processors are expensive. There are often many hidden monthly and transaction fees that can quickly add up, especially if your company is processing payments at a high-volume.

By building payments into the Bill4Time platform, we can offer an all-in-one system that gives you an all encompassing view of your business at a lower cost. Bill4Time Payments offers industry-low transaction fees, flat pricing and is 100% compliant with ABA, IOLTA, and all 50 state bar rules for accepting online payments – operating account payments are available now and trust account payments will be available in June.

Getting started with online payments is simple! (6:30)

In just a few simple steps, your company can be on its way to offering hassle-free online payments. Our 3-step application process is easy to complete and can be found right in your Bill4Time account at no additional cost.

If you're not already a Bill4Time user, you can get a [free custom demo](#) to learn how our practice management software can help you better manage your business.

Invoicing & your clients online payment experience (9:05)

The Bill4Time platform already offers [customized invoicing](#), but with the addition of Bill4Time Payments, your invoices will now display a “Pay Now” button. Clients will receive an email notification prompting them to make their payment either through a previously setup [client portal](#) or a secure link. In just a few clicks, your clients can quickly pay their invoice and it will be deposited directly into your operating account.

Live payments overview (14:00)

You can easily view all of your clients payments including if they were successful, declined or refunded in one place. This one-stop shop feature allows you to quickly assess where payments originated from and their status.

You can learn more about the other amazing benefits Bill4Time Payments has to offer by viewing our behind-the-scenes video below.
