

# Bill4Time Offers Secure Client Payment Portal to Time Billing Software Suite

## Cloudswithicons

January 6, 2015—[Bill4Time](http://www.bill4time.com) (www.bill4time.com), a leader in time billing software for legal, accounting, consulting and service businesses, announced today the release of the Bill4Time Client Portal, an online payment gateway. This unique online service provides customers of Bill4Time clients with immediate online access to invoices and the ability to pay online. Businesses that offer online payment options typically receive payments up to 30% faster than when paid by traditional methods.

Bill4Time clients can automatically send their customers alerts that an invoice has been sent. Customers are invited via email to access the secure client portal and within minutes can go online and view the invoice. Customers can then pay the invoice at that time—from a laptop, desktop or any mobile device. The business can track the status of the invite, whether it was accepted, is waiting or has expired after seven days due to inactivity or an invalid email address. An easy to follow setup guide is available at <https://www.bill4time.com/blog/wp-content/uploads/2015/02/Bill4Time-Client-Portal-Quick-Start-Guide-February-20152.pdf>.
